"DON'T LISTEN TO ME, LISTEN TO SCIENTISTS,"

GRETA TELLS CONGRESS 

This 16-year-old Swedish girl, founder of the 'Fridays For Future' skips school to protest in streets with some students about climate change.

This organization calls for rapid changes to the way people live in order to keep temperatures from rising 1.5C by 2030.

"I want you to unite behind the science. And then I want you to take action," Greta said.

She was one of the four students invited to address the hearing, to give the next generation's view on climate change.

SOME FACTS ABOUT GLOBAL WARMING

- ~ Since 1880 the world has warmed by 1.09 degrees Celsius.

September's horoscope

<p>♑ Capricorn</p> <p>You're entering a whole new professional cycle, bringing growth that you've only dreamed possible.</p>	<p>♈ Aries</p> <p>Life is stabilizing. With focus and dedication, you can make real, steady, and tangible progress this month. Organize your life, and cultivate a daily meditation practice as part of your spiritual hygiene.</p>	<p>♊ Gemini</p> <p>Let go of the past, and nurture the seeds you're planting now. What matters is that you choose what makes you happy; then the risk will be worth it.</p>
<p>♋ Cancer</p> <p>Be sensitive, avoid being critical, and look for solutions rather than problems. You're at the end of one stage of your journey. This is a chance to rest your feet a while before you begin your next adventure.</p>	<p>♌ Leo</p> <p>You're growing in a sense of well-being, stability, and self-worth, gaining clarity in a financial situation and your most intimate relationships. This is a chance to plant seeds, nurture, and invest in what and who you value.</p>	<p>♍ Virgo</p> <p>In September, the sun and Mars meet your ruler Mercury, making you undeniably aware of your desires, especially in your relationships. This hasn't been easy, but these are lessons of love, and you're birthing something that's a labor of love.</p>
<p>♎ Libra</p> <p>This is a chance to rest, recharge your batteries, and reconnect with your inner being and a greater divine plan. Life is evolving on a core level, on the surface, and behind the scenes. But for all that is unknown, a situation is stabilizing.</p>	<p>♐ Sagittarius</p> <p>It can get easy to get stuck in your comfort zone when you've found a groove. But trust that any shake-ups in your routine are implementing much-needed changes that will bring you greater security and freedom. You're leveling up.</p>	<p>♒ Aquarius</p> <p>September begins with a new moon and planets Mercury, Venus, and Mars stacked in Virgo, marking a process of core transformation and evolution for you, your life, and any relationships that involve sex, money, and bloodlines.</p>
<p>♓ Pisces</p> <p>September begins with a new moon and planets Mercury, Venus, and Mars in your relationship zone, bringing your one-to-one relationships into focus. There's real love and creative and financial potential in situations, but avoid projecting or overanalyzing a situation. What you need most is clarity.</p>	<p>♉ Taurus</p> <p>The part of your chart that relates to your inner child, heart, creativity, love, romance, and sexuality. You're growing and blossoming as the month begins and progresses.</p>	<p>♏ Scorpio</p> <p>On the fourteenth, Mercury and Venus enter Libra. For some, a friendship is moving to a more intimate, sexual level, or you're connecting with someone who stirs powerful emotions within you. If you're experiencing disillusionment, this is a chance to become intimately acquainted with your subconscious patterns in relationships and heal your heart.</p>
