Covid-19: World leaders call for International Pandemic treaty

Prime Minister Boris Johnson has joined more than 20 world leaders in calling for a new global settlement to help the world prepare for future pandemics. Leaders including French President Emmanuel Macron and German Chancellor Angela Merkel write in newspapers round the world that Covid has posed the biggest challenge since World War Two.

Another pandemic or health crisis is a matter of "not if, but when", they say. And the pandemic has shown that "nobody is safe until everyone is safe".

Netflix and Amazon gave darling Indian filmmakers hope. Now that's turning to fear.

Netflix and Amazon have given many series to Indian directors to produce and the list of indian series and movies on these two platforms continues to rise. However, this has had its drawbacks as well. The films and series have exposed some of India's inner

workings which has displeased the Police and certain political figures of the country. Therefore, the Prime Minister Nerendra Modi has announced new rules and guidelines for streaming services, though no explicit bans have been given of yet.

Ever Given ship freed in the Suez Canal, authority confirms.

Cairo, Egypt (CNN)The Ever Given container ship has been dislodged and is now floating, after blocking the Suez Canal for almost a week, authorities said Monday.

Tug boats had spent several hours on Monday working to free the bow of the massive vessel after dislodging the stern earlier in the day.

Marine traffic websites showed images of the ship away from the banks of the Suez Canal for the first time in seven days following an around-the-clock international effort to reopen the global shipping lane.

The successful refloating was met with triumph and relief, as hundreds of vessels that have been trapped since last Tuesday prepare to restart their journeys.

DEMON SLAYER

Demon slayer is a 2019 anime upcoming with a second season coming out hopefully some time this year. It's an action packed anime with various fight scenes, interesting lore, and extremely good animation and characters to come along with it. This anime does have a high level of gore and it's not to be recommended to those who don't like it, though it's nothing to extreme. Since it is Japanese original, the names will be weird to those not familiar with anime. The main character, Kamado Tanjiro is probably one of the best characters I've seen. The story revolves around him trying to find a cure for his sister. In this world demons attack humans at night, and Tanjiro is trying to find a cure for his sister, who was turned into a demon. There are a group of people called the demon slayer corps which fight the demons using special swords and breathing techniques to enhance their fighting. Tanjiro joins them in hopes of finding the cure to his sister. The anime currently has 1 season made out of 25 glorious episodes.

Secret Neighbour

This game has been around for a while now and most of you have played it or have seen it played on youtube.

For those of you that haven't played it yet, Secret Neighbor is a suspenseful Multiplayer Horror Game where a group of kids try to rescue their friend from the Neighbor's creepy basement. Only problem is one of the kids is the Neighbor in disguise.

Honestly, this game has been relevant for so long due to the addictiveness it possesses. It both entertains by having an amazing gameplay with lots happening on screen but it is also a game which connects people together and gives them a chance to use persuasive language to try to convince others that you are not the one chasing them. All in all, I have spent many hours playing and if you haven't played yet I highly recommend it.

April Fool's Day is an annual event that happens on April 1 consisting of practical jokes and hoaxes. Jokesters often expose their pranks and jokes by shouting "April Fools!" at their parents, friends and teachers.

April Fool's Day has been celebrated for several decades and was mostly popularised in 1700. April Fool's Day was mostly popularised by English pranksters playing jokes on each other. Some historians believe that April Fool's Day dates back to 1582. This was because France switched the yearly calendar to Gregorian Calendar. April Fool's Day really started to get popular around 1950-2000 when television shows and live news stations began to participate.

In addition April Fool's Day is celebrated in many different countries and different ways. Starting in Ireland, Ireland has a rule which if you don't play your prank by noon the prank is considered a frown. Scotland is celebrated across two days. Easter

Easter is a Christian holiday that celebrates the belief in the resurrection of Jesus Christ. The name Easter celebration comes due to the the goddess in England, Eostre, who was celebrated at beginning of spring. The only reference to this goddess comes from the writings of the Venerable Bede, a British monk who lived in the late seventh and early eighth century.

Since its origins, Easter has been a time of celebration and many traditional Easter games and customs developed, such as egg rolling, egg tapping, pace egging, egg finding, cascarones or confetti eggs, and egg decorating. The story of the Easter Bunny is thought to have become common in the 19th Century. Rabbits usually give birth to a big litter of babies, so they became a symbol of new life.

Legend has it that the Easter Bunny lays, decorates and hides eggs as they are also a symbol of new life. Many Christians worldwide celebrate Easter with special church services, music, candlelight, flowers and the ringing of church bells. Many Christians view Easter as the greatest feast of the Church year. The Christian celebration of Easter is marked in around 95 countries across the world. It is celebrated differently in some places. For example in :

- Italy they have Scoppio del Carro which is a cart filled with fireworks and pyrotechnics is lit on Easter Sunday.

- New York it is a tradition since the 1800s to have a Easter parade in which the sanctuaries in churches is decorated by flowers.

-Antigua, Guatemala, is the largest Easter celebration in the world. It's a week-long celebration during which the community commemorates the passion and crucifixion of Jesus by conducting somber processional marches, carrying floats with large sculptures of Jesus and Mary. Sand and colored sawdust are painstakingly designed and laid in the streets in intricate patterns for the march to proceed over.

-Norway celebrates Easter in a very unusual way: by reading and watching stories about crime .This "Easter crime" tradition is unique to Norwegians, as no other country around the world celebrates the sacred holiday by obsessing over mysteries, murders, and violence.

-Greece belongs to the Eastern Orthodox Church. Accordingly, Easter holidays are sacred and celebrated with great devotion and fanfare, but differ in scope and tradition all over the country. We had an enquiry throughout our secondary school.

There are a lot of countries and with that brings different traditions for every festival like Easter.

We discovered that most of the younger students celebrate Easter and the more grown up students don't do much or nothing at all in Easter the younger ones go egg hunting,egg painting,enjoy a feast with their family,throwing a party and much more...
