DIY Crafts that are so easy it's scary!

We know that Halloween is right around the corner, so why not put your craft skills to the test and make awesome little projects!

By Emilio

Spider Suckers

These are very simple little creatures.

You will need: Lollipops, Pipe cleaners, Googly eyes, Scissors and Glue.

First wrap the pipe cleaners around the lollipop. Next bend each one to make little legs. Finally, add some googly eyes to the front of the spider.

And voila!

Next up is a very easy pumpkin origami craft to decorate your whole house. Here is a link to the tutorial:

<https://youtu.be/3-33GEBcX98>

Haunted House Lantern

Cut out a silhouette of a house using black paper, make sure to leave empty areas for the windows/cracks. You can then put a light behind it to look like it's glowing.

Tissue Box Monsters

Cut pieces of paper to look like teeth, then paint the tissue box a colour of your choice. Next put giant googly eyes on the tissue box.

And now you have a monster!

Here we have a spider web. To make this you will need: Popsicle Sticks, A Hot Glue Gun and Yarn/String.

You will need to hot glue the popsicle sticks in a snowflake-like formation. Then you can simply wrap the string around the popsicles to finish the web and paint.

Cool Pumpkin carving designs

This has been called the laziest carving ever. However, it is very creative and funny though.

Although simple to do, this puking pumpkin could be a very nice addition to your scary decoration.

Last but certainly not least, we have this wonderful piece of art. To carve this out you'd need a very steady hand and an artistic mind but the results are awesome.

Restaurant reviews

L'alfassina Cafe Bar

This very family oriented, small Spanish genuine restaurant is located in L'Alfáz del Pi.

It is a tapas restaurant that, more or less, has the same menu throughout the year. In the evening they add some dishes. There is always one fish dish and one meat dish and of course their amazing tapas.

It is not very expensive and you get what you pay for. The average is about 20 Euros per person for a full meal.

One thing I very much like is that they buy vegetables from local farmers.

And my two favorite dishes are the garlic shrimps and the turrón ice cream for dessert.

RESTAURANTE MARISQUERÍA EL CAMIÓN

This seafood restaurant is located in Calpe by the beach.

When you arrive you go up to the counter and pick what plate you want out of the pre-prepared platters. There are different ones: fish, mixed seafood and then also plates with individual seafood. They also have a menu of the day.

The sitting area is very simple but the views and the food is very good and affordable. I would recommend everyone to go there with someone and then share different plates. After, maybe go to calpe beach and then eat your delicious lunch.

Halloween music

By Anastasia

This is Halloween is the opening song of the movie *The Nightmare Before Christmas*, composed by Danny Elfman. It is performed by the residents of the fictional "Halloween Town", which is the film's main setting during the opening of the film. I can think of no better soundtrack to put on during your halloween celebrations. In addition, it is suitable for all ages!

Almost everyone has learned the answer to the age-old question: "Who you gonna call?" The iconic theme song for the 1984 film *Ghostbusters* was written and performed by Detroit

artist Ray Parker Jr., and has undoubtedly become his biggest hit.

This song is not only movie history but is a song that should be sang again and again throughout the years as it is a classic and should never be forgotten.

Super easy mummy recipe:

Super easy recipe

How to do it:

To make this delicious recipe you must first cut the puff pastry into ten strips and roll them around the sausage. Then beat an egg and spread a little on each sausage. Then put them in the oven for 20 minutes at 180 degrees. Meanwhile cut the garlic into small pieces and put sesame seed on top of each piece.
